FOR BAUDRAUF GMBH · OCTOBER 2026 · A FIRST LOOK, NOT PUBLISHED

A website that says what BAUDRAUF really does.

A new homepage, a clearer sitemap and a few steps so AI assistants like ChatGPT name you when people ask for a contractor in Vienna. All three rest on one idea and one set of facts.

THE LINE WE PROPOSE

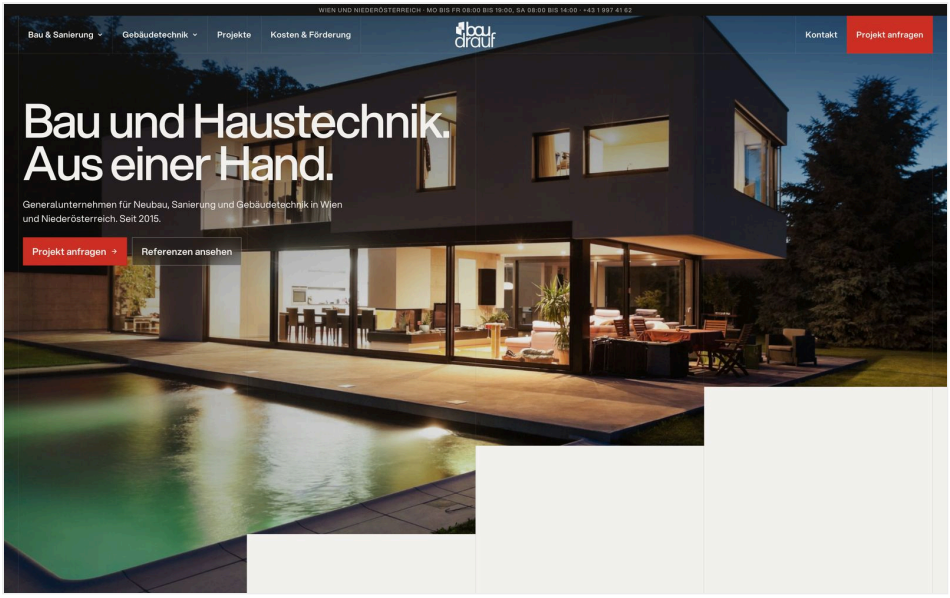

Bau und Haustechnik. Aus einer Hand.

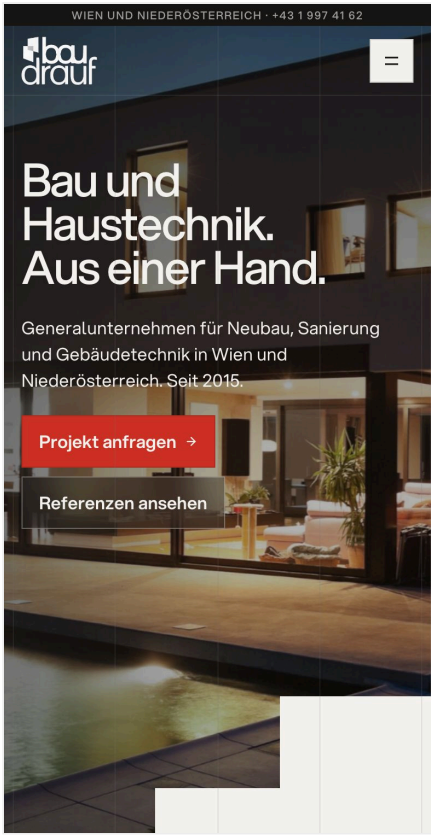

Building work and building services from one company that holds both trade licences. A renovation and the new heating, planned together. Few firms in Vienna say this clearly, and it is exactly what people now ask AI assistants.

01 · HOMEPAGE

Proof first, one action, your own work.

Every photo, project, client logo and quote is yours, taken from baudrauf.at.

~~about 14 screens~~

10 clear sections

~~11 different buttons~~

One action: "Projekt anfragen"

~~8 form screens~~

One short form

~~points about "other companies"~~

Your clients, projects and reviews

02 · SITEMAP

Every page stays. Three new ones.

Your service pages keep their addresses, so nothing that ranks today is lost. The menu gets simpler, and three pages cover work you already do but nobody can find.

NEW

Sanierung + Heizung

The renovation and the switch from gas to a heat pump as one project, one contract.

NEW

Für Unternehmen

Property managers, insurers, shops and Gastro. You already work for them; the site does not say so.

ONE DATED SOURCE

Kosten & Förderung

Prices and subsidies in one place, with a date, so no page contradicts another.

03 · AI SEARCH

Being the firm the AI names.

More people ask ChatGPT or Google's AI which company to hire. The assistant names two or three firms. Here is where BAUDRAUF stands today.

0 of 3

QUESTION, AS PEOPLE TYPE OR ASK IT	CHATGPT	GOOGLE AI MODE	AI OVERVIEW	PERPLEXITY
Generalunternehmer Wien	not named	not named	no AI answer	not named
Badsanierung Wien	not named	not named	no AI answer	not named
Wärmepumpe Wien	not named	not named	no AI answer	source only
Ich will meine Altbauwohnung in Wien komplett sanieren und gleichzeitig von Gas auf Wärmepumpe umsteigen. Welche Firma macht beides?	not named	named	named	named
Kennst du die Firma Baudrauf in Wien? Ist sie empfehlenswert?	named	named	named	named

Each answer checked by hand against its screenshot, 15 October 2026. Firms named instead include Hochstern, Flarent, Horvath Bau, bazuba. When asked about BAUDRAUF by name, every engine knows you, but Perplexity calls you "relativ jung" because it reads the 2022 register date, not "seit 2015".

WHAT WE WOULD DO

1 · One set of facts

So every source agrees on who you are

- Remove contradictions, like "25+ Jahre" next to "seit 2015". Today an AI already calls you "relativ jung"
- Date every subsidy statement
- The same facts on the site, Google and the directories

2 · Pages that answer

So the AI has something to quote

- Each service page opens with a direct answer: what, where, rough cost, how long
- Your 37 references linked to the right services
- The three new pages above

3 · Proof elsewhere

So others confirm what you say

- More Google reviews, asked for at every handover
- Listed where people ask "who should I hire", such as daibau and my-hammer
- Your customer videos with a written transcript

NEXT STEP

A short call to see if this fits.

If the direction feels right, we agree the scope together and start with the facts and the homepage.

GOOD TO TALK ABOUT

- Which services matter most to you right now?
- Which numbers on the site can we confirm, for example "1000+ Projekte"?
- Who looks after the website today?
